■ REEL 1 — ORDER BLOCK + FVG

■ Monday

Title: 'Order Block + FVG — Yahi hai Smart Money ka Secret Zone' | 60 sec | Talking Head + Chart B-roll

[0–5 sec] | HOOK

"Bhai, retail traders isliye lose karte hain kyunki woh randomly entry lete hain. Smart money traders ek specific zone ka wait karte hain. Aaj main tumhe woh zone dikhaunga."

■ Kya tum bhi random entry lete ho? ■

[5–15 sec] | ORDER BLOCK KYA HAI

"Yeh dekho — yeh hai Order Block. Price ka woh last bearish ya bullish candle, jiske baad market ne bada move liya. Yahan banks aur institutions ne apna crores ka order place kiya tha."

"Aur price hamesha wapas aata hai — in orders ko collect karne. Hamesha."

■ Order Block = Bank ka buying/selling zone

[15–28 sec] | FVG KYA HAI

"Ab us move ke andar dekho — yeh teen candles ke beech jo gap hai, yeh hai Fair Value Gap. Price itni tezi se gaya ki market mein imbalance create ho gaya."

"Market yeh imbalance fill karna chahta hai. Toh woh wapas aayega — guaranteed."

■ FVG = Market ka unfilled imbalance

[28–45 sec] | COMBINED SETUP

"Ab yahan dhyan do. Jab Order Block aur Fair Value Gap ek saath overlap karte hain — woh hai tumhara sniper entry zone."

"Price is zone mein aaya, rejection candle aaya, confirmation mila — entry lo. Stop loss OB ke neeche. Target next liquidity level."

"Yeh guessing nahi hai bhai — yeh institutions ka game padhna hai."

■ OB + FVG = Sniper Entry Zone ■

[45–55 sec] | WHY IT WORKS

"Retail traders indicators follow karte hain — jo hamesha late signal deta hai. Smart money traders price structure, liquidity aur imbalance follow karte hain. Yahi hai real edge."

■ Indicators react karte hain. SMC anticipate karta hai.

[55–60 sec] | CTA

"Agar yeh helpful laga, toh RajmudraFintech ko follow karo daily SMC setups aur forex training ke liye. Comment mein likho ■ agar chahte ho live chart pe yeh setup dikhaunga."

■ REEL 2 — BOS — BREAK OF STRUCTURE

■ Tuesday

Title: 'Market ki Direction kaise pata karo — BOS Seekho' | 60 sec | Talking Head + Chart B-roll

[0–5 sec] | HOOK

"Bhai, trend follow karna chahte ho? Pehle yeh seekho — Break of Structure. Bina iske, tum andhere mein trade kar rahe ho."

■ Trend ka secret — BOS ■

[5–18 sec] | BOS KYA HAI

"Dekho — market hamesha highs aur lows banata hai. Jab price ek previous high ko todta hai — yeh hai Bullish Break of Structure. Market ab upar jaana chahta hai."

"Aur jab previous low toot jaaye — Bearish BOS. Market neechे shift ho gaya."

■ BOS = Market ne direction change kiya

[18–35 sec] | TRADE KAISE LEN

"BOS confirm hone ke baad — wapas pullback ka wait karo. Pullback mein Order Block ya FVG dhundho. Wahan entry lo trend ke direction mein."

"Trend ke against mat jao. BOS ke baad sirf trend direction mein trade karo."

■ BOS confirm → Pullback wait → OB/FVG entry ■

[35–50 sec] | COMMON MISTAKE

"Bahut log BOS hone se pehle hi entry le lete hain — yeh galat hai. Confirmation ke bina entry lena matlab institution ka trap mein fasna."

■ Confirmation ke baad entry — kabhi pehle nahi

[50–60 sec] | CTA

"Kal main dikhaunga CHOCH — jo BOS se bhi powerful signal hai. RajmudraFintech follow karo aur miss mat karo. Comment mein likho BOS ■"

■ REEL 3 — CHOCH — CHANGE OF CHARACTER

■ Wednesday

Title: 'Trend Reversal ka Sabse Bada Signal — CHOCH' | 60 sec | Talking Head + Chart B-roll

[0–5 sec] | HOOK

"Agar tum trend reversal early pakadna chahte ho — yeh ek concept tumhari trading badal dega. Naam hai CHOCH — Change of Character."

■ Reversal signal jo bahut kam log jaante hain ■

[5–18 sec] | CHOCH KYA HAI

"Jab market downtrend mein hoti hai — lower highs aur lower lows bana rahi hoti hai. Achanak price ek previous lower high ko tod deta hai — yeh hai CHOCH."

"Yeh signal deta hai ki sellers ka control khatam ho raha hai. Buyers aa rahe hain."

■ CHOCH = Trend shift ka pehla signal

[18–35 sec] | BOS vs CHOCH

"BOS trend continuation confirm karta hai. CHOCH trend reversal confirm karta hai. Dono alag kaam karte hain — dono important hain."

"CHOCH ke baad BOS aaye — tab high confidence reversal trade milti hai."

■ CHOCH → BOS = Powerful reversal confirmation

[35–50 sec] | ENTRY STRATEGY

"CHOCH ke baad wapas pullback aayega. Us pullback mein OB ya FVG dhundho. Wahan se long entry lo — stop loss structure ke neeche."

■ CHOCH + OB/FVG = Early reversal entry ■

[50–60 sec] | CTA

"Kal main dikhaunga Liquidity Sweep — jo market ka sabse bada trap hai. Rajmudrafintech follow karo. Comment mein likho CHOCH ■"

■ REEL 4 — LIQUIDITY SWEEP

■ Thursday

Title: 'Yeh Hai Market ka Sabse Bada Trap — Liquidity Sweep' | 60 sec | Talking Head + Chart B-roll

[0–5 sec] | HOOK

"Stop loss hunt ho gaya? Price exactly apne SL pe gaya aur phir wapas aa gaya? Yeh accident nahi tha bhai — yeh tha Liquidity Sweep."

■ SL hunt = Trap. Ab samjho kyon. ■

[5–18 sec] | LIQUIDITY KYA HAI

"Retail traders apna stop loss hamesha obvious jagah rakhte hain — previous high ke upar ya previous low ke neeche. Yeh sab stops milke ek liquidity pool banate hain."

"Institutions ko orders fill karne ke liye liquidity chahiye. Toh woh price wahan le jaate hain — stops trigger karte hain — aur phir real direction mein move karte hain."

■ Liquidity Pool = Retail traders ke stops ka cluster

[18–38 sec] | SWEEP KAISE IDENTIFY KAREN

"Equal highs ya equal lows dekho chart pe. Jab price wahan spike kare aur wapas aaye — sweep confirm. Ab entry ka wait karo opposite direction mein."

"Ek choti si wick nahi — price properly bahar jaaye aur wapas close ho. Tab hi valid sweep hai."

■ Sweep candle = Long wick + Close back inside ■

[38–50 sec] | TRADE SETUP

"Sweep ke baad OB ya FVG dhundho us candle ke andar. Wahan entry lo. Yeh high probability setup hai kyunki institution ne apna position le liya hai."

■ Sweep + OB/FVG = Institution ke saath trade ■

[50–60 sec] | CTA

"Ab se jab SL hunt ho — trap nahi, opportunity dekho. RajmudraFintech follow karo. Comment mein likho SWEEP ■"

■ Caption:

SL hunt = Opportunity! Liquidity Sweep ko samjho aur institutions ke saath khelo. @rajmudraFintech #LiquiditySweep #StopHunt #SMC #ForexIndia #RajmudraFintech #ForexHindi

Title: 'Entry se Pehle Yeh Confirm Karo — MSS' | 60 sec | Talking Head + Chart B-roll

[0–5 sec] | HOOK

"CHOCH dekha, Sweep dekha — ab kya? Confirm karo MSS — Market Structure Shift. Bina iske entry mat lo."

■ Entry ka green signal = MSS ■

[5–20 sec] | MSS KYA HAI

"MSS matlab — price ne ek significant swing point tod diya lower timeframe pe, higher timeframe ke direction mein. Yeh confirm karta hai ki reversal genuine hai, fake nahi."

"Sirf sweep ya CHOCH pe mat jaao — MSS confirmation lo. Tab entry powerful hoti hai."

■ MSS = Reversal ka final confirmation

[20–40 sec] | FULL SEQUENCE

"Poora sequence yaad karo — Liquidity Sweep hoti hai, CHOCH aata hai, MSS confirm hota hai, OB ya FVG pe entry milti hai. Yeh hai SMC ka complete entry model."

■ Sweep → CHOCH → MSS → OB/FVG Entry ■

[40–55 sec] | WHY MSS MATTERS

"Bina MSS ke entry lena matlab abhi bhi uncertainty hai. MSS ke baad market tumhare saath hai — institutions ne position le liya hai aur tum unke saath chal rahe ho."

■ MSS ke baad trade = Institution ke saath

[55–60 sec] | CTA

"Kal main dikhaunga Inducement — jo tumhe fake moves se bachayega. Follow karo RajmudraFintech. Comment mein likho MSS ■"

■ Caption:

MSS = Entry ka final green signal! Bina confirmation ke entry mat lo. @rajmudraFintech #MSS #MarketStructureShift #SMC #ForexIndia #RajmudraFintech #SmartMoney

■ REEL 6 — INDUCEMENT

■ Saturday

Title: 'Yeh Fake Move Tumhe Trap Karta Hai — Inducement' | 60 sec | Talking Head + Chart B-roll

[0–5 sec] | HOOK

"Tune entry li, SL hit hua, price wapas gaya jahan socha tha — yeh tha Inducement. Aaj samjho kaise bachein."

■ Fake breakout = Inducement trap ■

[5–20 sec] | INDUCEMENT KYA HAI

"Institutions real move se pehle ek chhota sa fake move dete hain — retail traders ko lure karne ke liye. Yeh move liquidity collect karta hai unke real entry ke liye."

"Dekho — price thoda upar gaya, retail ne buy liya, phir neeche aakar unka SL hit kiya, aur tab real move upar hua."

■ Inducement = Fake move before real move

[20–40 sec] | KAISE PEHCHANEN

"Inducement hamesha structure ke bahar thoda sa jaata hai — lekin close wapas andar hoti hai. Volume kam hota hai. Aur yeh hamesha real OB ke opposite side pe hota hai."

"Real breakout mein strong close hoti hai, volume hota hai, aur structure properly toot ti hai."

■ Weak close + Low volume = Inducement ■■

[40–55 sec] | HOW TO USE IT

"Inducement ko trap ki tarah mat dekho — opportunity ki tarah dekho. Jab inducement dikhe, wait karo. Real move OB + FVG se aayega — wahan entry lo."

■ Inducement ke baad OB/FVG entry = High probability ■

[55–60 sec] | CTA

"Kal series ka last aur most important reel hai — poora SMC framework ek saath. Miss mat karna. Follow karo Rajmudrafintech ■"

■ Caption:
